Dear Sir/Madam,

Invitation to Tender

REF: MAGSYR26.004 Demining tools

MAG invites you to submit proposals to provide Demining Tools.

Important Note on Tender Structure — Preferred Supplier Framework Agreement

Dear Supplier,

Before reviewing the attached tender documents, please note that this tender will result in a Preferred Supplier Framework Agreement, rather than a one-time purchase order. We would like to explain what this means and why we believe it offers a fair and mutually beneficial arrangement for both parties.

What is a Preferred Supplier Framework Agreement?

Rather than awarding this tender to a single supplier for a one-off purchase, MAG intends to pre-qualify a small number of suppliers (typically 2–3) per item category. Pre-qualified suppliers will be included in a preferred supplier pool and may be called upon to fulfil orders as they arise over the life of the agreement, based on need, item availability, and agreed terms.

About pricing and payment:

- Price validity: Prices should be quoted in US Dollars (USD) and held fixed for a period of six (6) months from the date the framework agreement is established.
- Payment currency: Actual payment will be made in Syrian Pounds (SYP), converted from the agreed USD price at the prevailing exchange rate on the date of each individual payment.

Why this benefits both parties:

- For suppliers: You gain a stable, guaranteed USD-equivalent price for six months, protecting your margins from currency depreciation, and the opportunity for a longer-term working relationship with MAG through repeat orders — rather than competing for a single, one-time purchase.
- For MAG: We secure consistent access to quality suppliers and pricing certainty across the agreement period, without the delays and administrative burden of re-tendering for every individual purchase.

Implications of participating:

- Being pre-qualified does not guarantee a fixed volume of orders — orders will be placed based on actual operational need during the agreement period.
- Suppliers who accept these terms are expected to honour the agreed USD pricing for the full six-month period, even if market conditions shift.
- MAG reserves the right to distribute orders among pre-qualified suppliers based on item availability, responsiveness, and performance.

We believe this structure offers a fairer, more transparent, and mutually beneficial path forward under current market conditions, and we encourage all interested suppliers to review the attached tender documents with this context in mind.

Please do not hesitate to contact us with any questions before submitting your bid.

Best regards, Sonia Di Dino
